CELEBRATING OUR 22nd YEAR

Seiko is one of a few rare companies that made everything for their watches. From Cases, Dials, Movements and Tools, TO Oils, Grease, Repair Equipment, Straps, Bands, Bracelets, Crowns, everything was designed, created manufactured in house.

IT HAS BEEN POSTED THAT:

1- AN ALL ORIGINAL 6105 MOVEMENT MODEL SEIKO, DEPENDING ON THE MODEL AND CONDITION, CAN RUN FROM 250 TO 7500.00

2- AN ORIGINAL 6105 MODEL SEIKO, DEPENDING ON THE MODEL AND CONDITION, PROFESSIONALLY RESTORED, PRICE DEPENDING ON ORIGINAL and AFTERMARKET PARTS, CAN RUN BETWEEN 400.00 TO 3000.00.

3- AN ENCLOSED NON WORN MINT CONTION -EVERYTHING LIKE IT WAS WHEN PURCHASED, WITH ONLY THE ILLUMINATION DEAD, NON SERVICED OR REPAIRED, DELIVERS THE HIGH PRICES- FACT IS, A IN OUR OPINION BASED ON FACT, A PROFESSIONAL MOVEMENT SERVICE MAY INCREASE THE PRICE.

IF MOVEMENT PARTS WERE REPLACED [MAIN SPRING BALANCE STAFF ETC] IT MAY ALTER PRICES AS TO USE VS CONDITION. ESPECIALLY IN THE MIND OF A BUYER. WE SEE A SMALL CHANGES IN PRICING IF IT WAS A REPAIR OF MAJOR PART LIKE BALANCE STAFF , WHILE A MAINSPRING WOULD NOT STATE IT WAS WEAR VS SMART MOVE . AND, PRICE IS ADJUSTED UP AND DOWN BY THE FACT OF WHO, PERFORMS THE WORKS. IF IT WERE HOME BREW OR BY SEIKO OR A PRO REPAIR WORKS.

FACT CHECK 1: IS CORRECT EXCEPT IT IS AN AVERAGE OF 250 TO 1800.00 WITH THE LEVEL ACHIEVED DEPENDING ON THE MODEL, WITH ALL ORIGINAL PARTS, THE MOVEMENT SERVICED -OR REPAIRED AS STATED ABOVE-, AND LOOKING USED TO LOOKING MINT.

FACT CHECK 2: IS CORRECT EXCEPT IT IS 250 TO 1300.00 WITH THE LEVEL ACHIEVED DEPENDING ON THE MODEL, WITH THE MOVEMENT SERVICED OR REPAIRED, WITH OR WITHOUT CHANGED MOVEMENT PARTS, AFTER MARKET OR ORIGINAL CASE PARTS.

SERVICE REPAIR REAL WORLD PRICE

NORMALLY MOVEMENTS SERVICING PLAYS NO PART IN NOT ATTAINING THE HIGH PRICES AND IN FACT SHOULD BE ACCOMPLISHED. MOVEMENT REPAIRS W/ORIGINAL PARTS SHOULD PLAY LITTLE PART IN PRICING BUT MAY, WITH CERTAIN MODELS AND/OR INVESTERS . AND IF THE PART DENOTES SHOCK, HEAVY USE ETC. OUR AVERAGE ATTAINED WAS FULL VALUE AS TO WITH/WITHOUT MODELS

CASE DETAILING REFINISHING CASE SHOULD BE AS ORIGINAL AND NOT HACKED THERE ARE MANY CASES WITH DENTS AND OTHER MARKS AND STEEL CHANGES THE FINISHED STEEL LOOK AND MEASUREMENTS ARE IMPORTANT DEPENDING ON SAME IT IS UP TO BUYER

OUR AVERAGE ATTAINED WAS WITHIN 10% OF THOSE ORIGINAL WITH SOME DAMAGE

THERE ARE LEVELS OF DAMAGE FROM MINT.

CASE ALL ORIGINAL KEPT IN SAFE 40 YEARS TOP PRICE

CASE WORN IN THE NAM OR EVERY DAY UP TO 50 TO 60% OFF

CASE RESTORED PRO RECONDITION STEEL AVERAGE 15-20% OFF

DIAL ORIGINAL CLEAN FULL PRICE

ANY CLEANING THAT DOES NOT ALTER LOOK FULL PRICE

COMPOSITION OR COLOR OR CHANGE 20% LOSS

RE-ILLUMINATION: UP TO BUYER 80% OF BUYERS PAY ADDITIONAL

OUR RESTORED 6105 ATTAIN 750 TO 1200 AVERAGE

CRYSTAL MINT ORIGINAL HARDLEX BONUS

CRYSTAL TREATED MINERAL GLASS AFTER MKT NO LOSS UNLESS MINT SALE THEN UP TO 12%

CROWN AFTER MKT 15% LOSS

SEALING CROWNS PREMIUM

BEZEL AND INSERT ORIGINAL MINT FULL VALUE

BEZEL INSERT WORN SCRATCHED 20% LOSS

BEZEL INSERT UPDATED: UP TO BUYER AVERAGE 10% GAIN

 hi-beat caliber

Available on US military bases PX/BX AND R&R LOCATIONS, the early Seiko Divers, particular the 6105, were Popular with US soldiers in Vietnam. The 6105 would become a combat watch long before 1979 when Martin Sheen, as Captain Willard in "Apocalypse Now", wearing a 6105-8110 while traversing the NAM into CAMBODIA AND ITS HIGHLANDS in search of the Off The Reservation Rogue Colonel Kurt (Marlon Brando) and his "Montagnard" Army who were wreaking havoc on the Viet Cong [Vietnamese Communist Forces].

The Snake-Eaters and the Yards

The Vietnamese tribesmen who fought alongside American Special Forces won the Green Berets' admiration—and lost everything else. The indigenous Montagnards, recruited into service by the American Special Forces in Vietnam's mountain highlands, defended villages against the Viet Cong and served as rapid response forces. The Special Forces and the Montagnards—each tough, versatile, and accustomed to living in wild conditions—formed an affinity for each other....

Seiko 6105

Production: 1968-1977

WR: 150M
 cushion-case style 6105-8000/8009
 traditional-case style 6105-8110/8119

Seiko 6105-8000 is SAME as the Seiko **6105-8009**, last number denote sales area
 Symmetrical cushion case
 hacking movement
 non locking crown
 Bi-directional 60 minute bezel
 wr 150m

1970 &

Seiko 6105-8110 IS SAME AS Seiko 6105-8119, last number denotes sales area

Asymmetrical cushioned case
 44mm wide without a crown
 48mm CROWN included
 13mm thick
 turn lock crown
 Suwa style back
 turtle case
 Bi-directional bezel

The **6105-8110/8119** was made from 1970-1977, and were first delivered with the words "water proof" as in: "water 150m proof" on the dial, and **"waterproof" on the case back. But a US ban on using the words "WATERPROOF" on watches meant SEIKO would alter the words to "water 150m resist" with "water resistant" on the back later in the same year. This adds to value.** Many early seiko watches carried the waterproof info, finding these, specifically the early 8119.. well, that is a cause for definite premium over the "resist/resist" models.

6105A/B caliber , 17J rotor automatic, 21,600 bph. NO WINDING, HACKING -MOVEMENT STOPS WHEN CROWN IS PULLEDt.

Seikosha

- 1881 — Kintaro Hattori opens the watch and jewelry shop "K. Hattori" (*Hattori Tokeiten* in Japanese; currently named Seiko Holdings Corporation) in the Ginza area of Tokyo, Japan.
