ACCUTRON TUNING FORK BATTERY

Tweet 0

ACCUTRON TUNING FORK BATTERY

The Accucell-1™

The great *new* power source for
ACCUTRON® 214 & 218s
& now the **221** (using ACC-2)

It delivers both the **right voltage** and **long life** . . . up to a year. It works with a special circuit that outputs the ideal voltage (1.35v) for the running tuning fork movements. The power source is a low drain silver oxide cell for more reliable power than old mercury, or zinc-air cells. The combined assembly is encapsulated in a delrin space-ring that fits the Accutron® 214, 218, 224, 2300 movements. The *Accucell-1™* replaces the original mercury cells 343 and 387 which are no longer manufactured. ***The Accucell-1™, You're going to love it!***

ACC-1

for Accutron® 221 (2210) use the **ACC-2**

The **Accucell-2** provides proper voltage with only a one time installation. Use with a 396 cell.

Accutron® is a registered trademark of Bulova Watch Company, Inc. Accucell-1™ (Reg. US Pat. Office)
